Dear Colleagues,

we are most pleased to be able to inform you, that the ICA Executive Committee has selected Florence as host and venue of the International Cartographic Conference 2021. Congratulations!

The two submitted bids have been considered and have been evaluated carefully. The concept of the bid of the Italy have been seen by the EC as the most promising one.

The Executive Committee appreciates the effort which has been taken by you and your colleagues in putting the bid together and we trust that you will organize a successful conference. We see this as a true mutual interest of both, the Italian national member and the ICA as such. We therefore expect a very close cooperation in all kind of senses in this respect.

Please proceed as it is indicated in our statutes and guidelines and provide a written report to the ICA Executive Committee continuously (at last every half a year). Please take into consideration to promote your forthcoming conference on the next ICCs.

Again, congratulations on behalf of the EC of the International Cartographic Association! Please feel free to distribute this good news as wide as you see it appropriate.

With kind regards,

Best regards,

László Zentai

Secretary-General and Treasurer of the ICA
